Tang Prize

Tang Prize is an international award founded in 2012 in Taiwan. The Prize was founded for encouraging innovative science and research activity, and has its own concept of awarding, in comparison with Nobel Prize. The Prize includes four nominations: Sustainable Development, Biopharmaceuticals, Sinology, and Rule of Law.

The founder of the Tang Prize is Doctor **Samuel Yen-Liang Yin**, the CEO of the Tang Prize Foundation is Professor **Jenn-chuan Chern**.

The Prize is given every two years, since 2014. In each nomination is amounts about 1 360 000 USD, and additional grants about 340 000 USD for further research, in total amount, about 1, 7 million USD for winner.

In 2014, in the nomination “Sustainable Development”, the Prize was awarded to Doctor Gro Harlem Brundtland (Norway).
